## SELECTING A SUMMER CAPITAL

### Congressman and Railway Men Urge Rival Mountain Sites

### MT. WEATHER IS IDEAL

**Representative Carlin Urges Selection of Government Farm Near Bluemont, Loudoun County.**

Washington, Aug. 7—The movement for the establishment of a summer capital in Maryland or Virginia in proximity to Washington so that the President and his official family can be within a few hours ride of Washington at all times in gaining strength, and as a result of the agtation Representative C. C. Carlin, of Virginia, announces that he intends to press the subject in the next session of Congress. Mr. Carlin favors the Mount Weather site at Bluemont, Va.,

Blue Ridge Summit, Pa., put in her bid for the summer capital. W. H. Doll, of the traffiic department of the Western Maryland Railway, came to Washington yesterday morning and suggested the Pennsylvania resort.

Congressman Carlin said he intended to introduce a bill in the next Congress directing the Agricultural Department to turn over to the War Department the Mount Weather Government farm, near Bluemont, for a summer home for the President and his family. He added that there were 300 acres of land attached to this farm, and it would be a comparatively easy matter to erect homes for the members of the President's Cabinet.

"The Government paid $150,000 for the Mount Weather farm and the buildings upon it," says Mr. Carlin.

"This farm has upon it now the most beautiful residence in Virginia. With $25,000 or $30,000, the place can be made an ideal summer capital within 2 1-2 hours motor ride of Washington.

"It is an ideal place for a home from the standpoint of health, comfort and accessibility. The big stone house is located on top of the Blue Ridge Mountains. The temperature there is ideal in summertime on account of the altitude.

'My bill will simply provide the transfer of the property to the War Department for use by the President and his family.

"The ever-increasing duties of the office of the President of the United States makes the position one of the most trying in the nation. It is almost imperative that he should keep in close touch with the affairs at Washington. With that in mind, last year I introduced a bill, paving the way for the utilization of now deserted Mount Weather as a summer capital. In the next session of Congress I intend to get behind a new bill and try my best to get it through Congress.

"Mount Weather commands a magnificent sweep of Piedmont Valley and the Valley of Virginia. On a clear day you can see the Allegheny Mountains across the valley and command a view of 60 miles up and down the valley. On the Piedmont side you can see the Washington Mounment. President Madison's old home is only a short distance away."

The oldest child was nine years old, and the youngest but four months. None of the bodies bore marks of any violence other than would have been caused by drowning.

## PROBE AT WORK AT HOPEWELL

### Grafters Seeking Immunity in Recent Bribery Revelations

### POLICEMEN ARE HELD.

**Highway Robbery Charged Against Former Officer Pollard—Unheard of Condtions.**

Richmond, Aug. 7—Seeking immunity from prosecutions for participation in the wholesale bribery and graft operations at Hopewell, revealed by investigations of detectives and the Du Pont police at the powder plant town, it is expected that several of the principal offenders will turn State's evidence and give important testimony before the grand jury, which will be impaneled at Prince George Courthouse Monday morning. It is known that several men, accused of participation in the bribe giving and bribe taking, have already secretly confessed to their part in the system, and others are expected to come forward before their cases come to trial.

Two more members of the police force removed by Judge Jesse F. West, of the Circuit Court of Prince George County last Tuesday, have been held for the action of the grand jury and are in jail. They are Willard Mullen and former Policeman Pollard. They were taken into custody on warrants sworn out by Supervisor Reeves, of the Du Pont police whom Judge West designated as the head of the temporary Hopewell force.

Pollard was arrainged before Justice Arminstead yesterday morning charged with bribery and highway robbery. He was held for the action of the grand jury on the bribery charge and the hearing on the high way robbery warrant was continued. Commonwealth's Attorney Rivers and Special Prosecutor George E. Wise conducted the prosecution.

Mullen is charged with holding up a Greek restaurant keeper Thursday night while representing himself to be an officer. When arrested by officer Bulger, of the Du Pont force he had placed handcuffs on W. J. Moore an important witness wanted by the prosecution in connection with an assault on a woman.

No sensational raids have been made, the prosecutors believing that the method of securing ample evidence of all kinds of lawlessness for presentation to the grand jury will have more permanent results.

Friends from Norfolk came to the relief of Tony Becess, the cabaret proprietor arrested Tuesday with former Chief Henderson and John Porter deposed lieutenant of police, and he was released on $5,000 bail. Henderson gave a new bond yesterday but Porter is in jail at the Du Pont plant.

### RUN FOR THEIR CLOTHES

**Cop Comes to Rescue of Young Women and Put Sacks Over Them**

Huntington W. Va. Aug 7—Costumed only in the sun rays, two pretty young women caused something akin to a riot when they left the Ohio River and gave chase after several men who had stolen the clothing of the girls, hung in a boathouse moored alongside the wharf.

The girls had not run a block before a great crowd was at their heels Policeman Frank Simpson was standing on Main street, three blocks from the river when the mermaids overwhelmed him with demands that he "get their clothes."

"I will," said Simpson, "but come with me into this feed store,'" There he requested the girls to don gunny sacks and sent them to the police station.

### NINE MEN HANGED

**Seven Judicial Executions And Two Victims of Judge Lynch**

Memphis, Tenn., Aug. 7—Nine colored men were hanged yesterday, seven legally, two lynched, and the tenth was being chased with such vigor that the total mya be ten before dawn.

Alabama led the list with four legal hangings, the governor refusing reprieves in each case. At Evergreen Robert Watkins and John Salter were hanged, while a squad of militiamen stood guard to prevent disorder threatened by citizens, who wanted the men burned for the murder and assault of Mrs. Mary Lassiter.

At Cullman, Georgie James, was hanged for the murder of George Clayburn, who was shot through an open window while he was reading a Bible. Millard Carpenter was hanged at Birmingham for the murder two years ago of John T. Camps, a white man.

Three were hanged in Mississippi Two of them, Peter Bolen and Jim Scales, were convicted of murdering another colored man. The hanging was at Frensno. Many women were in the crowd of 5000 people, and excursions were run from nearby towns. Just as the traps were sprung the crowd burst forth into the hymn, "There Is a Land of Pure Delight," observing the final request of the negroes.

Bunyan Walter was hanged at Fayetteville for the murder of Tom Neals.

Dispatches from Shawnet, Okla., tell of a crowd, armed to the teeth, which hanged Ed Berry to a Santa Fe Railroad bridge, riddled his body with bullets, and dispersed.

In the early morning hours at Thilly, Fla., a crowd lynched Will Leach, accused of attacking a 14-year old girl.

At last reports a mob of 500 men were closing in on a colored man near Liberty, Mo., who attacked a farmer's wife. A lynching is almost certain there it is said.

### WOMAN ACCUSES NEGRO

**Farm Hand Assaults Woman in Maryland.**

Easton, Md., Aug.. 7—Following the criminal assault upon Mildred Clark, near Federalsburg, by "Wish" Sheppard, a negro, comes the news of an alleged criminal assault Monday upon Mrs. Lulu S. Willey, aged 30 years, wife of Charles Willey, a farmer of Pea Neck, between Royal Oak and St. Michaels. Aaron Johnson, a negro, who worked on Mr. Willey's farm, is accused.

Johnson was arrested Thursday night by Constable Alex. Mortimer, of St. Michaels, and after a hearing before Justice Dodson was committed to jail to await the action of the grand jury.

Mrs. Willey, who identified the negro, said at the hearing that while her husband was away Johnson came into the house between 11 o'clock and midnight, drove her small children out and fastened the doors and attacked her.

When Mr. Willey came home the next day she told him what had occurred. They went to St. Mchaels to report to the authorities. In order not to frighten the negro away the affair was kept secret until Constable Mortimer had made the arrest and Deputy Sheriff Stevens had placed Johnson in jail.

While there is but little talk of lynching by the residents of St. Michaels and Royal Dok, there is considerable excitement, and a speedy trial, to prevent violence, is being urged.

Johnson admitted that he worked for Mr. Willey off and on for four or five years, but denied that he committed the assault. He said he wanted a speedy trial.

## CZAR LEAVES FORT TO FATE

### Rains Seriously Impede March of Retreating Muscovite Forces

### NOT OUT OF THE TRAP

**Believed Germans Contemplate Drive From Baltic in Attempt to Penetrate Russ Capital.**

London, Aug. 7.—With the exception of the great entrenched camp of Novogeorgievsk, the Russians have evacuated the whole line of the Vistula River. Ivangorod, the southern fortress, having fallen into the hands of the Austro-German army, the Russians are now making their way eastward to the Brest-Litovsk line.

The decision of the General Staff to leave the garrison in Novogeorgievsk is announced in Petrograd dispatches. The object is to deprive the Germans of the use of railway communications and of the Vistula River for bringing up supplies for their armies.

Novogeorgievsk is situated at the junction of the Vistula, Narew and Wkra Rivers to the northwest of Warsaw. It has two powerful bridgeheads, eight citadels and 74 redoubts containing 11 inch and 12 inch batteries. It is calculated by military observers that an army corps can hold out there for many months, as the camp is protected by massive earthworks, which doubtless have been enlarged and improved since the Russians were compeled to begin their retirement.

The laying of siege to Novogeorgievsk may prove one of the most interesting operations of the war, as it doubtless will show whether earthworks are less susceptible to the fire of high explosives than are cupola forts.

Of the retiring Russian armies the official reports say nothing. The Russians, however, destroyed bridges over the Vistula and took other means to place obstacles in the path of their forces while others of their forces continue to offer stubborn resistance to the Germans and Austrians, south and north, who are trying to forge a ring around them.

The general opinion here is that the Russians began their retirement in time to escape this inner ring, but they have yet to reckon with the wider outflanking movement from Loniza which if successful, would turn the Brest-Litovsk line.

An even more serious menace seemingly is General von Buelow's advance in the Baltic provinces While according to Petrograd the Germans have been thrown back immediately south of Riga, they have made a further advance east of Ponlewech, toward the Dvinsk-Vilna-Petrograd Railway.

Some critics believe this move means that the Germans, unless they suceed in smashing the Russian army, intend to make an effort to advance farther into Russia and endeavor to force Emperor Nicholas to acept a separate peace. With the history of previous invasions of Russia before them, however, it is believed in other quarters that the German staff would hesitate at such a tremendous undertaking.

### DROWNS SHOOTING FALLS.

**Canoe Smashed When it Struck A Dam Near Hanover, Pa.**

Hanover, Pa., Aug. 7.—Attempting to shoot the falls over Waldheim dam, along the Big Conewago, yesterday, Robert Gitt, 19 years old, and William Schmuck, 18, college students, were drowned.

Coming down stream in a canoe the high water induced the boys to take a chance. They gave their valuables to Robert Ehrlart, a companion, and put him ashore. The canoe was shattered when it struck the bulkwark and the boys were thrown in a whirlpool 20 feet below. Although expert swimmers they were drawn under. Scores of campers dragged the creek, but the bodies have not been recovered.

### ENGLAND ANXIOUS

**London Paper Warns Country of Its Peril**

London, Aug. 7—The Morning Post, in an editorial on the Russian situation, says:

"We would warn the country that the situation is serious. Whatever professional apologists may say, it is certain that Russia has not fallen back from Warsaw for any other reason than the urgent dictates of necessity.

"The great enveloping movement of the German armies on the north is not yet over. It is at present being developed.

"Its a movement most dangerous and formidable, and it will take all the wariness and skill of the grand duke and the magnificent steadiness of the Russian infantry to escape the tolls set for Russia's armies by the great strategists who direct the German offensive.

"The cause of the entente powers at present is on knife-edge. There is no assurance anywhere save only in that faith which presses forward through dangers without looking to the right hand or the left.

"We are in front of a situation where the only safety lies in doing the very utmost of which a nation is capable."

### SEES CHANGE IN WAR LAWS

**James Bryne, New York, Addresses Virginia Lawyers**

White Sulphur Springs, W. Va., Aug. 7—"Probable Changes in the Laws of War.' was the title of the address of James Bryne, of New York before the Virginia State Bar Association yesterday morning. Mr. Bryne treated his subject from a lawyer's standpoint, without leading to any belligerent. He evoked applause with the statement. "I have perfect confidence that so long as President Wilson is at the helm, whatever our Government should do will be done, and done calmly, considerately and courterously.'"

He dwelt on the decisions of the United States Supreme Court in the Bermuda, Springbok and Peterhof cases, which held that the Government of the United States had the right to seize neutral ships, as well as their cargoes destined to neutral ports, if it could be shown that the voyage to neutral port was part of a continutous voyage to a Confederate port. Of these decisions, he said, Great Britain had already reminded the United States. Nearly all the European nations protested at the time against these decisions, but Great Britain did not protest, and in the South African war maintained the same doctrine against shipments to the Boers through Delagoa Bay.

The speaker sketched the unsuccessful attempts of Great Britain at several Hague conferences to have the law of contraband repealed. The probable changes in the law of war, he said, would be that the law of contraband would disappear and along with it the right of blockade.

After the announcement of the standing committees for the next year the association adjourned. The annual banquet was held last night.

## CARRANZA MAKES PEACE PROPOSAL

### Note Submttted to Lansing to be Laid Before Conference

### SIGNIFICANT MOVE

**Armed Intervention, it is Said, Will Not be Regarded With Favor by Latin America.**

Washington, Aug. 7—General Carranza has submitted to Secretary of State Lansing a formal offer to enter into peace negotiations with General Villa.

The offer was contained in a brief submitted to the Secretary of State by Charles A. Douglas, Carranza local attorney, with a view of having it laid before the Pan-American-Mexican conference.

Although Mr. Lansing declared that he did not present it to the conference, it is regarded as significant that shortly after the brief reached Hugh L. Scott, chief of staff of the United States army, he was ordered to the border to confer with Villa, and that the Pan-American conference adjourned without making a final decision on the Mexican policy.

The offer of General Carranza was as follows: "Any citizen of Mexico who, in good faith, has a suggestion to make for the welfare of the country, I and others concerned in the Government will gladly hear and confer with him.

"There has been no time when Villa or the commanders acting under him could not have obtained a conference with Obregon or our other commanders in a military way. We are ready to confer with any Mexican element for the welfare of our common country, but we must not yield or throw to the winds the victory which now enables us to realize the aims of the revolution."

When the next meeting of the conference will be held in New York, has not been announced. It will depend, it is believed, on how soon the being made by Gen. Scott, and can hear from their governments as to the propositions laid before them by Mr. Lansing.

Last, but not least, the conferees at their next meeting will expect Mr. Lansing after conference with President Wilson to have his propositions in far more definite form than they have yet appeared.

A question uppermost in the minds of the Latin Americans relates to the course which the United States is prepared to follow should the agreement among the conferees fail to obtain a favorable response from General Carranza. Nearly all of these diplomats now concede that Carranza, from a military standpoint, is well prepared to defy the United State to the point of inviting armed intervention by the United States. Armed intervention by the United States, he diplomats have been assured their respective governments, will not be regarded favorably by Latin America.

**Facing Dying Man Woman Admits Fullfilling Threat to Burn His Eyes Out**

Jersey City, Aug. 7—Michael Tucik forty-five years old, a master carpenter, and his wife, Sophia, quarrelled and when Tucik went to bed his wife shouted after him:

"I ought to burn your eyes out! And I will!"

Tucik, at midnight, saw his wife enter the room, carrying a kettle of steaming water, but before he could leap from the bed she dashed the contents of the kettle in his face. He was blinded and his face, shoulders and arms terribly burned.

Mrs. Tucik was arrested and last night was taken to her husband's bedside, where he accused her of blinding him and burning him. She admitted she had done so, but expressed no remorse. Observation as to her sanity will be made. It is said Tucik will die.

New York August 7—The Wall Street Journald says: "The additional order for about $40,000,000 shells is expected to be announced by the American Can Company within the next 10 days. This will make a total of nearly $80,000,000, and it is intimated that there may be more to come. ## STATUS OF THE WAR.

There is at present much upon the surface which is not to be taken as the true index of existing conditions in Europe. Germany has penetrated Russian Poland, but has acquired a shell—only this and nothing more. The Russian army is still at large, and until this is rendered hors de combat the capture of any place will not prove a serious hamper to the Muscovites. Napoleon captured Moscow, but, in the language of juvenile anglers' he caught a "pizen cat."

When the last year of our civil war made its advent it was apparent to most observers that the great task of the federal commander of the Army of the Potomac was to destroy the army of General Robert E. Lee. The capture of Richmond would not accomplish this. General Ulysses S. Grant, who had gained his spurs by capturing Vicksburg, the backbone of the Southern Confederacy, was called to Washington and tendered the position of commander of the federal forces in Virginia. When asked by War Department officials what course he intended to pursue, he replied in substance that he would mass all men possible in Virginia and make the Confederate army his objective. He argued logically, stating that when he lost a man he could put two in his place, while General Lee had none with which to fill the gaps. Grant determined to fight it out on that line if it took all the summer. The result is comparatively recent history.

So long as the Russian army remains in any way intact hordes of Germans must necessarily be kept in Galicia. Russia is in a position to fill gaps, but it may not be so with Germany.

A dispatch from Rome published elsewhere in the Gazette, states that the apparent victors are more anxious for peace than their adversaries. Rome is probably the best view point in Europe at present, and observations from the city of the Ceasars, especially those emanating from the Vatican are worthy of attention. Germany has made some sucessful drives, but that the country cannot keep up the same volume of steam contantly is apparent to her best wishers. The crust of the mighty Russian empire has been but scratched. With one hunderd and sixty-seven million people, a territory larger than United States, abounding in endless resources, should the present conflic continue, must sooner or later weaken her warlike adversary, who has but sixty-seven million of subjects. Hence Germany, at a time when she could retire from the conflict in honor would only be too glad to do so.

A decade ago Japan, with all her pugnacity, knew the war with Russia had proceeded long enough, and while crowned with victory readily allowed the United States to suggest peace times which were adopted at Portsmouth. The Mikado knew his tide would ebb eventually.

That Russia has no intention of throwing up the sponge is apparent. The Baltimore American says:

"Guns, ammunitions, these are the great lacks of the Russians as they have been of the other of the Allies Graft and mismanagement, the parasites of Russian officialdom, have been partly the cause of the defeat of the Russian armies. The promise has been made the Russian people that grim punishment awaits all those who have trifled with the nation's resources. But the fact remains that Russia is in need of munitions succor as well as of other supplies. In this extremity Japan has been forging and fabricating munitions of war for its former foe and now at the moment of the Russian defeat at Warsaw the yellow men are stripping their forts of guns to send them to the Russian lines. The myriad little shops throughout Japan are busily engaged in the manufacture of all kinds of war supplies for the Russians; and out from this country is being brought the hopes of Russia for the ultimate success of its arms.

"Even Korea, that has hardly been reconciled to absorption by Japan, is represented as being engaged almost as a people in the making of boots and ammunition cases. All kinds of equipment as well as munitions are being made in Japan and the soldiers who some years ago faced the determined yellow men of the Mikado upon the fields of Russia's defeat are now rejoiced over the industrial alliance that at the present counts more than the furnshing of men—although should the pinch come Japanese soldiers will doubtless be found fighting side by side with Russians—such are the anomalies of history."

## REVIVING OLD CUSTOM

Indignation was aroused yesterday morning at Holy Rosary Catholic Church, Bethel street and Eastern avenue, Baltimore, when Edward O. Dougherty, a stranger, was noticed sitting in a rear pew smoking a pipe. Several worshipers went to the pew and asked Doughetry to stop. He persisted in smoking, however, till finally the attention of nearly the whole church was attracted. Then Matthew Swardowski, the sexton, arrived and bodily hustled Dougherty from the edifice and into the hands of a policeman. Justice Smith fined him $3 and costs which Dougherty paid.

It may not be generally known, but smoking in church was allowable during the early history of this country. Hollanders who figured in the settlement of New York and other places in that section of America carried their pipes and tobacco into houses of worship. When they found themselves getting drowsy during the elucidation of "thirteenthly" the Dutch worshippers reached for flints, steel and tinder and striking fire smoked at pleasure.

## NEWS OF THE DAY

Gen. Benjamin F. Tracy, who was President Harrison's Secretary of the Navy, died of paralysis in New York yesterday, in his 85th year.

A statue of Bismarck weighing 900 pounds was brought to Moscow Wednesday. It was taken at the kaiser's estate in East Prussia and since has been kept in the Baltic provinces.

Joseph O'Donnell, 39 years old, of Norfolk, who sustained a fractured skull by a fall from a cottage line trolley car at Ocean View last Wednesday night, died later of his injuries.

It is learned from The Hague that the anti-war council there has been privately informed by certain neutral governments that they were ready to convene a permanent peace conference to be composed of special representatives from each country.

There is more gold in the United States than in any other country in the world. The latest Treasury figures show that on August 2 there was $2,006,399,539 in gold cash and bullion—the greatest stock of gold of any country in the world, probably greater than any other two countries in the world.

Plans for a Russo-Japanese alliance are likely to receive a decided setback as a result of the fall of Warsaw. Russia is anxious to effect this alliance immediately in the hope that Japanese troops may be sent to help oppose the Germans, but general sentiment in Tokyo is opposed to the sending of any Japanese expedition at present.

The conference of the diplomatic representatives of six Latin-American countries with Secretary of State Lansing and Paul Fuller, of New York, President Wilson's principal advisor on Mexico, adjourned late yesterday afternoon to meet again in New York at the call of Secretary Lansing.

A bombardment as terrific as that by which the Bavarians reduced Warsaw is being directed by the German guns against Verdun. With guns of every caliber, the German crown prince is endeavoring to duplicate on the west the success of Prince Leopold against the Polish capital.

With the words "not guilty" on his lips, Bernard Montvid, convicted of the murder of Father Joseph Zebris, pastor of St. Andrews' Lithuanian Catholic Church, in New Britain, Conn., and Eva Gilmanaitis, his housekeeper, on the night of February 8 last, was hanged in the State prison at Wethersfield early yesterday.

A letter from Warsaw dated Tuesday, August 3, says the towns of Jirardoff, Groitzi and Blonie all were in flames when the Germans reached them. The invaders are said to have been forced to fight fire so persistently in the advance to the Vistula River that the Teutonic armies were preceded by detachments of military firemen.

Stabbed to the heart in a fight in Wide street, Norfolk, by John Pritchard, colored, Allen Smith, alias "Pasko" colored, died as he was being carried to St. Vencent's Hospital. The Smith negro was stabbed with a big Barlow knife, the blade of which was fully four inches long. Immediately after the stabbing, Pritchard ran and eluded the police. The later surrendered to the officers.

According to private reports from Berlin the calling up of the untrained landstrum, between the ages of 42 and 45, in various towns generally is meeting with vigorous opposition on the part of manufacturers, who have held several conferences with the military authorities. Until now these classes have been called only from the rural districts.

Ten thousand persons have been leaving Riga, the Baltic capital, daily for a week. Among the objects most carefully removed from the evacuated territory are church bells, many of them often too large to remove whole without erecting special framework. In such cases the bells are sawed to pieces. Such was the fate of the 300-ton bell in the Warsaw orthodox cathedral.

The unprecedented cold weather in Michigan during the past few weeks has caused not only amazement, but real worry in many circles. Stories from all over the State report that the cold weather is playing havoc with crops of all kinds, and makes the cost of living look threatening. There was a flurry of snow on Grosse Isle, near Detroit. Overcoats and real winter furs were common on the streets.

Eddie Baines, the 13 year old son of Mr. and Mrs. Peter Baines, who live at Halls Old Mill, about 5 miles northeast of Sutherlins, Campbell county, died Wednesday evening as result of terrible injuries he sustained four hours earlier when a loaded shot gun he was carrying down some steps, exploded. The load caught the unfortunate young boy in the lower part of the abdomen blowing to pieces important internal organs and lacerating the intestines.

Evacuation of Warsaw cost the Russian government $75,000,000. This amount was granted by the war office for the removal of factories from the Polish capital to the interior of Russia. Military experts estimate that fully $50,000,000 worth of property was destroyed by the Russians before they gave up the Warsaw and Ivangorod forts. The bridges over the Vistula alone are worth more than $15,000,000.

The home of Mr. Jos. Janak in Dinwiddie county, was destroyed by the late storm. The roof of the dwelling was blown off and before Mr. and Mrs. Janak could get out a tree was blown across the house. The dwelling was crushed and both Mr. and Mrs. Janak were caught beneath the debris, the latter having seevral ribs broken and the former receiving severe injuries.

Despite previous denials of the report, it was finally learned at police headquarters in New York yesterday that two sticks of dynamite, weighing about half a pound, and in such condition of deterioration that the slightest jar might easily have exploded them, were found in one of the women's rooms of the White Star liner Arabic shortly before she sailed for Liverpool on July 18.

Talk of early peace in Europe as the result of the fall of Warsaw is scouted in army and navy circles in Washington. It was pointed out that England and Russia now could not entertain peace proposals of any sort. Many of the officers do not believe that Russia will weaken as the result of Warsaw's fall. They declare that on the contrary the defeat will serve to stimulate their forces. They discredit the talk of Russia making a separate peace with the Germans.

American naval forces today took possession of the office of the port at Port au Prince, Haiti' the national palace and the Haitian gunboat Pacifique, which arrived in Port au Prince yesterday morning. During the movement to take the office of the port, the Americans opened fire on the Haitians and one Haitian was killed. The occupation of the office of the port and the national palace gave the Americans the last positions held by the Haitians. The populace has been thrown into consternation by the operations of the Americans.

## VIRGINIA NEWS

Martin Vredenburgh of New York city, jumped from the Old Dominion steamer Madison on the way to Norfolk from New York Thursday.

Last night in a colored settlement at Durmid, near Lynchburg, Sue Smith, a young colored woman, was found dead in her home with the top of her head blown off, and a shotgun lying beside her body. Her husband, Tom Smith, to whom she had only been married a year, is missing.

George S. Fox, 29 years old, of Richmond, shot and probably fatally wounded his wife yesterday afternoon and killed himself by firing a bullet into his brain. Mrs. Fox, formerly a Mrs. White, declared her husband had thrice before tried to kill her. Mrs. Fox is the mother of five children by her previous marriage.

State Accountant W. Frank Smyth yesterday filed at the office of Governor Stuart his audit of the books of the Negro Industrial and Historical Association containing the financial records of the recent negro exposition, which was held at the State Fair Grounds. The report of the accountant practically vindicates Giles B. Jackson, president of the exposition company, showing that the entries in the books tally with the vouchers signed by the proper authorities of the company.

An order entered yesterday by the Administrative Board of Richmond directs the removal of lettering and advertising of every character from the gasoline stations that have been established in large number on the sidewalks of the city under special permits granted by the board. The order is sweeping, and directs that the owner of each such sidewalk gasoline station shall forthwith paint it bright red, obliterating all lettering or advertising. Each station, it is ordered also, shall be provided with a red light at night.

Six Richmond girls left that city Thursday morning for a trip through the Shenandoah mountains in an automobile, which was driven by George Packett, a young reporter on the Hagerstown (Md.) Morning Herald. Six miles out of Gordonsville Packett tried to light a cigarette while driving at about thirty miles an hour, and the machine got beyond his control, turning turtle over a steep embankment at the side of the road. The whole party suffered injuries more or less serious. The girls returned to Richmond. Packett caught a train for his home.

Steubenville, O., Aug. 7.—Dorman J. Sinclair, aged 59, millionaire banker and financier, of this city, was struck and instantly killed by a Cleveland and Pittsburg Railroad train here last night. One year ago a crank attempted to assissinate him wounding him twice, but he recovered from his injuries.

ALL WRONG.

The Mistake is Made by Many Alexandria Citizens.

Look for the cause of backache.

To be cured you must know the cause.

If it's weak kidneys you must set the kidneys working right.

An Alexandria resident tells you how.

Mrs. W. A. Waring, 304 north Patrick Street, Alexandria, says: "I suffered awfully at times from my back and inflammation of the bladder. I used to be in such misery during these attacks that I had to have injections of morphine to relieve the pain. My back ached so badly that I thought it would kill me. The kidney secretions caused me terrible suffering and the pains in the top and back of my head nearly drove me insane. I often got so dizzy that I could hardly keep from falling and I felt sick all over. Nothing did me any good until I began taking Doan's Kidney Pills, procured at E. S. Leadbeater's & Son's Drug Store. The first box gave me great relief. I used several boxes altogether and they stopped that awful pain in my back and head and made my kidneys normal. Since then, I have taken Doan's Kidney Pills as soon as I have noticed any signs of kidney disorder and they have never failed to give me quick relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Waring had. Foster-Milburn Co., Prop.

Resolved by the House of Delegates, the Senate concurring (a majority of the members elected to each house agreeing thereto), That the following amendment to the Constitution of Virginia, be and the same is hereby, proposed and referred to the General Assembly to be chosen at the next general election of members of the House of Delegates for its concurrence, in conformity with the provisions of section fifty of article four of said Constitution, namely:

Strike out from the Constitution of Virginia, section fifty, article four, which is in the following words:

Sec. 50. No law shall be enacted except by bill. A bill may originate in either house, to be approved or rejected by the other, or may be amended by either, with the concurrence of the other.

No bill shall become a law unless prior to its passage it has been—

(a) Referred to a committee of each house, considered by such committee in session, and reported;

(b) Printed by the house in which it originated, prior to its passage therein;

(c) Read at length on three different calendar days in each house; and unless,

(d) A yea and nay vote has been taken in each house upon its final passage, the names of the members voting for and against entered on the journal, and a majority of those voting, which shall include at least two-fifths of the members elected to each house, recorded in the affirmative.

## POSITIONS SEIZED

**Great Trench to Eastern Extremity of Cappuccio Woods Taken by Italians**

Milan, Aug. 7—Pressure by the left wing and center on the Carso Heights continues and new important positions have been taken after severe fighting.

The Austrians tried to arrest the Italian progress by a violent attack on the positions recently conquered in the Bosco Cappuccio, but the shock was met successfully, and after the Austrians had been weakened a vigorous offensive was taken, with the result that the great trench to the eastern extremity of the Cappucio woods was carried.

The Austrians were driven a considerable distance beyond the lines they had occupied before their attack.

An attempt was made later by the Austrians to dislodge the Italians from their new positions by a furious bombardment and another attack en masse. It failed, and when the action was over the Italians were firmly established on new lines.

From Austrian sources a confession now comes that Italian guns are in command of Gorizia.

## LURED BY MIRAGE TO DEATH

**Autoist Perished After Torture in California Desert.**

Los Angeles, Cal., Aug. 7.—Failure to think about evaporation in an automobile radiator brought death to one man and frightful tortures to two others who arrived here from the desert and told of their sufferings.

The trio—James S. Roche and John H. Welsh, attorneys, and James G. Clarke, a real estate dealer—left here Sunday in an automobile for El Centro, in the Imperial Valley.

Monday morning the car stopped in the sand. The radiator was empty and they had no water. Roche and Welsh started after a mirage which they believed was the Salton Sea. Clarke waited a day and then, believing them dead, made his way to Mineral Springs, where he was resusciated and organized a rescue party.

The latter found Roche unconscious and Welsh dead. Roche said they drank lubricating oil.

## WORKING ON ALLIANCE.

**Entente Powers Make Representations to Serbian Premier.**

Nish, Serbia, Aug. 7.—Another step in the effort being made to bring about a Balkan agreement so that Bulgaria, Roumania and Greece may be mustered on the side of the Entente powers was taken here yesterday by the ministers of Russia, Great Britain, France and Italy, who made collective representations to Nikola Pachitch, the Serbian Premier.

An official communication issued in this connection says the representations of the Ministers were of the friendliest character and were made "in the hope of avoiding friction between the Balkan States and in establishing an entente between them, thus bringing nearer the final success of the Allies in the war."

The collective representations made coincide with the pressure brought to bear on the Greek Premier, M. Bounaris, on Wednesday of this week when the British, French, Russian and Italian Ministers at Athens submitted united representations to the Greek Government regarding the political situation in the Balkans in so far as it affected that country.

**Defends Arms Sales**

Santiago, Aug. 7.—El Mercurio, the most important newspaper of Chile, and dean of the South American journals today defended the sale of war munitions to the allies by manufacturers in the United States in a vigorous editorial.

Should Germany win said El Mercurio the American continent would be at the mercy of the country which was able to produce the greatest supplies of war munitions.

The viewpoint of the United States the newspaper said must appeal to the South American republics.
